## BSc (Hons) Agricultural Management (Top Up)

UCAS Code: D4U4

The BSc/BSc (Hons) Agricultural Management (top-up) programme has been designed to equip students with the knowledge and skills to enter the agricultural supply chain.

There is a focus on sustainability, the global market and the impact of climate change on agriculture and the management of agricultural land.

This programme aims to develop effective employees and future leaders of the industry through an understanding of the external influences affecting all land-based industries and the impact of these factors.

With an increasing population to feed,

sustainable agricultural practice is more than ever at the forefront of global food production. Continuing advances in science and technology, environmental considerations and diverse land based activities and enterprises emphasise the need for those working in the agricultural and allied industries to develop high level technical knowledge and forward thinking management skills and abilities in both a domestic and global context.
